Message from VC's desk

Let me take this opportunity to extend everybody a warm welcome to Vidyasagar University. Vidyasagar University, a young but promising and flourishing university which was created as a state university in 1981 and whose post-graduate departments started functioning from the session 1986-87, originally started with six post-graduate departments. The university now offers regular courses in 28 post-graduate departments, many of which are situated in the frontier and interdisciplinary areas of science and social science subjects. The university is proud of its highly qualified and dedicated faculty members, motivated students and research scholars and adequately equipped supporting and administrative staff in order to absorb the forces of modernization and globalization in the field of higher education.

Named after the legendary 19th century pioneering social reformer, social activist, litterateur and dedicated to the cause of the upliftment of women, Pandit Iswar Chandra Vidyasagar, Vidyasagar University, since its inception, has committed itself to its motto of *shiksha, gyan, pragati* by ensuring quality education and providing research and extra-curricular activities in the best possible manner in order to spread the benefit of higher education in a location which is relatively backward but which has a glorious history and had played a pioneering role in the freedom struggle of India. Within the last 35 years of its existence the university has registered its growth both qualitatively and quantitatively. Post-graduate studies are conducted not only to university departments but in about 25 of the affiliated colleges too. The number of affiliated general degree colleges is 54 and the subjects offered in the undergraduate colleges cover both the traditional subjects and modern emerging subjects as well. There are few professional

colleges providing management and social work education are also within the fold of the university.

Situated on the fringes of the historic city of Midnapore, the university has a beautiful, sprawling and eco-friendly plastic-free campus which also houses the Directorate of Distance Education. The extension and developmental activities of the DDE have gained a momentum under the able guidance and leadership of Dr. Ashim Kumar Sarkar, its current Director (Actg.).

This prospectus provides you with useful information about the Directorate of Distance Education, its admission requirements, structure of its academic programmes and general information on the services and facilities available there. Highly capable and experienced staff-members look after the teaching and learning process as well as the research work. The equipments, machinery and ICT facilities available at the DDE adequately support the research and innovation activities that are reflected in its various postgraduate programmes.

Like other Departments/Sections of the University, the DDE too is undergoing a speedy transformation. It is now being modernized by a thorough revamping of the infrastructure. The objective is to serve the students better. Extension of library facilities to the DDE students, class rooms with more ICT facilities, timely and speedy publication of results, improvement of laboratory facilities are just a few notable features of this ongoing development of the DDE.

We look forward in welcoming you as a new member of our Vidyasagar University Community. Join us and be proud of your identity as a student of Vidyasagar University.

(Prof. Ranjan Chakrabarti)
Vice- Chancellor

Message from Director's desk

'Open Learning' and 'Distance Education' - two terms are combined and known as Open & Distance Learning (ODL). Open Learning is a philosophy and Distance Education is the mode used for translating it.

The open and distance learning system has emerged as an important mode for providing education in India.

The growth of distance education has been exponential over the decades in India and it is in consonance with emerging demands of the knowledge. Initially the student enrolment increased slowly from 1112 students in 1962 to 29500 students in 1970 - 71, but during next two decades it increased to 6 lakhs nearly. In the year 2009-10, about 137 lakh students enrolled in ODL programme. Thus the enrolment of nearly 40 lakh students annually in ODL programme leads to the share of distance education in the GER to 22 - 23 %, which is very much significant.

In pursuance of the order issued by MHRD, Govt. of India dated 29.12.2012, the regulatory function of distance education programme are now been administered & handled by the University Grants Commission. The UGC is in the-process of framing new regulations for Distance Education.

India has one of the largest Distance Education System in the world, second only to China. Distance Education is a mode of delivering education and instruction to learners who are not physically present in a traditional classroom. Transaction of the curriculum is affected by means of specially prepared materials (modules) which are delivered to the learners.

Vidyasagar University started 14 postgraduate courses under the Directorate of Distance Education, from the year 1993 and it also deserves the credit of opening laboratory based science subjects in West Bengal for the first time. In the year 2007-2008, Distance Education Council (DEC) had given institutional regulation to offer 14 programmes through distance mode which are approved by its statutory bodies. In this year UGC has accorded continuation of recognition for 13 PG programmes for the academic session 2016-2017.
